

Warning under the Australian Consumer Law and Fair-Trading Act 2012

Under the *Australian Consumer Law (Victoria)*, several statutory guarantees apply to the supply of certain goods and services. These guarantees mean that the supplier named on this form is required to ensure that the recreational services it supplies to you:

- are rendered with due care and skill; and
- are reasonably fit for any purpose which you, either expressly or by implication, make known to the supplier; and
- might reasonably be expected to achieve any result you have made known to the supplier.

Under section 22 of the *Australian Consumer Law and Fair-Trading Act 2012*, the supplier is entitled to ask you to agree that these statutory guarantees do not apply to you. If you agree to this waiver, you will be agreeing that your rights to sue the supplier under the *Australian Consumer Law and Fair-Trading Act 2012* if you are killed or injured because the services provided were not in accordance with these guarantees, are excluded, restricted or modified in the way set out in this form.

NOTE: The change to your rights, as set out in this waiver, does *not* apply if your death or injury is due to *gross negligence* on the supplier's part. *Gross negligence*, in relation to an act or omission, means doing the act or omitting to do an act with reckless disregard, with or without consciousness, for the consequences of the act or omission. See regulation 5 of the *Australian Consumer Law and Fair-Trading Regulations 2012* and section 22(3)(b) of the *Australian Consumer Law and Fair-Trading Act 2012*.

Inherent Risks of Participation

Although not a motorsport event, off-road touring such as the Kidney Kar Rally involves certain inherent risks and dangers. These include the risk of injury, death, and damage to property resulting from collisions with other vehicles, persons, animals, and objects, as well as mechanical failure.

The Kidney Kar Rally may take place in remote locations where immediate medical assistance, vehicle towing and repair facilities, or mobile telephone coverage may not be available.

These risks may be reduced by conduct such as:

- not driving while fatigued, dehydrated, or intoxicated;
- driving according to driver skill level and prevailing road, weather, and light conditions;
- carrying an EPIRB;
- avoiding distractions and maintaining proper attention.

By participating in the Kidney Kar Rally, you acknowledge that these risks cannot be completely eliminated and that you voluntarily accept these inherent risks.
