

## **Rally Vehicle**

### **Compulsory**

- ◆ Fully Road-Registered Vehicle.
- ◆ Minimum Third-Party Property (Vehicle) Insurance.
- ◆ Fire Extinguisher (needs to meet with Australian Standards). No more than 5 years old or checked and certified within that time. Easily accessible and firmly mounted.
- ◆ A minimum of 5 litres of drinking water.
- ◆ A Snatch-em Strap (not tow rope or chain).
- ◆ Mud flaps of stout material for each driving wheel (mud flaps must be at least 100mm off the ground when vehicle is fully loaded).
- ◆ If your vehicle cannot cover at least 400kms between fuel stops, under rally conditions, sufficient fuel must be carried in an appropriate fuel container(s), that meets with Australian Standards, to cover that distance.
- ◆ UHF Radio (Fitted and in working order at all times).
- ◆ RallySafe Wiring Kit.
- ◆ A large amber ROTATING flashing light (approx. 75w), on the roof of the vehicle, for use in dusty conditions. Must be unobstructed and easily visible from the rear.
- ◆ Seat belts must be fitted to the vehicle for each krew member, and worn at all times.
- ◆ A Tow Point at front of vehicle.
- ◆ A securely mounted (safety rated) rear towing point.
- ◆ D-shackles (rated equal to 3½ tonne) are compulsory when using Snatch-em straps.
- ◆ A blue triangle sticker indicating the battery position (min. 50mm high).
- ◆ Secure loads inside the vehicle and boot area.
- ◆ First Aid Kit. Needs to meet with Australian Standards.
- ◆ High-Vis Safety Vests for each krew member. Must be worn by krew members when out of the vehicle on rally stages.
- ◆ Two reflective triangles.
- ◆ De-Ditching shovel safely stored.
- ◆ Laminated windscreen.
- ◆ A reliable watch/clock.
- ◆ A space of at least 800mm x 450mm must be kept clear on each front door, or an area approved by the organisers, for the official door decals.
- ◆ Garbage Bags for rubbish.
- ◆ NO decals from any other event are to be displayed on Kidney Kar Rally vehicles.

### **Highly Recommended**

- ◆ A rally computer (e.g. Terratrip, Halda, or similar) that reads to one hundredths of a kilometre. GPS Apps may also be used if preferred.
- ◆ Sump guard (extremely highly recommended)
- ◆ Properly fitted Full Harness seat belts.
- ◆ A centrally mounted tow bar for the front of the vehicle in case of breakdowns. (The tongue and ball may be unbolted and stored in the boot to avoid illegally protruding past the front of the vehicle.)

## **Official Kars**

### **Compulsory**

- ♦ Fire Extinguisher (needs to meet with Australian Standards). No more than 5 years old or checked and certified within that time. Easily accessible and firmly mounted.

- ♦ Google Maps access.

### **Highly Recommended**

- ♦ Fire Extinguisher is highly recommended (needs to meet with Australian Standards). No more than 5 years old or checked and certified within that time. Easily accessible and firmly mounted.

ALL EQUIPMENT WILL BE CHECKED, DURING THE FINAL SAFETY CHECK AND REGISTRATION.

## RallySafe WIRING KIT

The use of RallySafe for Rally kars is compulsory. To get started you should go to; [www.rallysafe.com.au](http://www.rallysafe.com.au) to order your installation kit. These MUST be fitted before pre-event scrutineering. The Display Unit will be fitted by the RallySafe technicians at Scrutineering on Registration Day.

You will not need the Internal Radio antenna as we do not use these in KKR.

Fitting Kits (3)

Antennas (5)

Mounts (3)
